

FIRE FLI

Fire Fli, a compact portable Fire Fighting trailer, is a new concept in fire fighting and rescue operations. It can go, or be stored in areas where a fire truck cannot go easily or quickly. It comes fully loaded with fire fighting and rescue tools.

Fire Fli can be dropped into a remote area, pulled in, towed in or can be there on scene ready to fight fires where big engines cannot go quickly. Mountain homes, factories, military locations, fire lines, forest fire zones, reservations, rural homes and many other isolated locations.

For more information or to order please call Allen Crawford at 720-641-2751
